Rabbi Moshe Chaim Friedman
1151 57th Street
Brooklyn, NY 11219

Dear Rabbi Friedman:

I am writing this letter as a *Hakarat Hatov* for the bris that you performed for our son. Even though the bris has its own *Mitzva* and *Simcha*, but for parents it is still a big step. Your gentleness, kindness and professionalism made the entire bris smooth and more comfortable for us.

In terms of the bris, my son Aharon did perfect right after the bris and your guidance for care after the bris provided very fast healing of the Bris, which even surprised the pediatrician.

I did not share this with you before, but wanted to let you know that people in the Shul for a while were talking about how nicely and gently the Mohel performed the bris.

Again, on behalf of my wife and myself, I want to tell you *Chazak Obaruch* for everything.

Sincerely yours,

Shomer Israelian, DDS
Associate clinical faculty New York University
